

KORAM

 **FISCATECH**

LINEA KORAM

KORAM is designed to meet the requirements of the fashion industry, in terms of looks, soft touch and workability. KORAM aims at the most demanding fashion market. It embraces Italian creativity while ensuring process reliability as every product is tracked and conforming to the most stringent eco/tox specifications. Moreover, the production chain is entirely made in Italy.

KORAM is treated with Ultra Fresh, an antibacterial product that protects against mould and bad odours resulting from bacteria and helps keep the product intact.

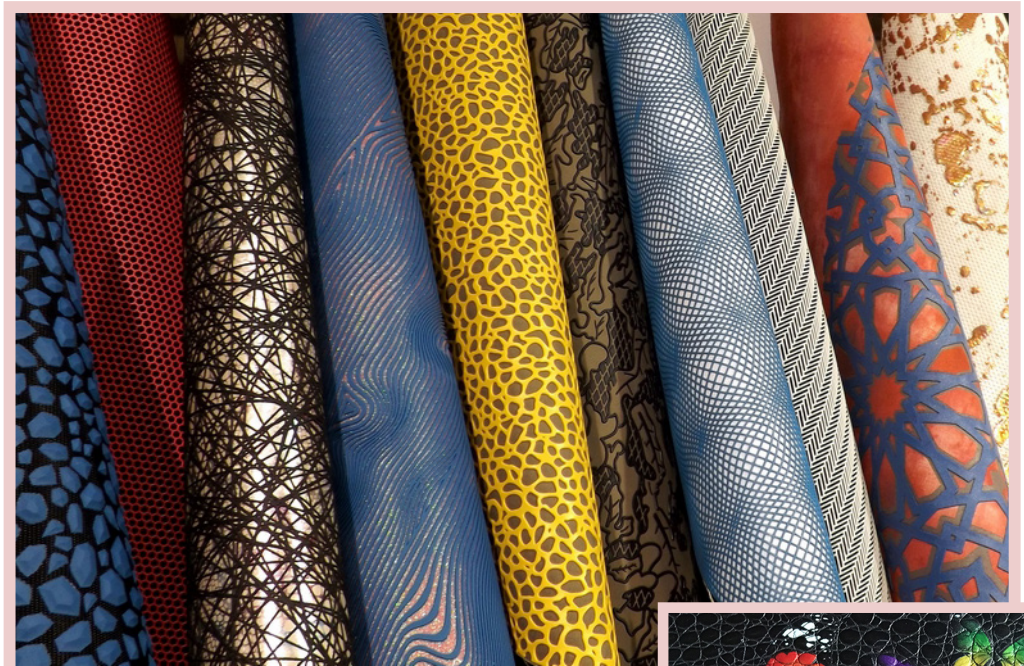

*Ultra-Fresh is a registered trademark of Thomson Research Associates Inc.

KORAM is available in a variety of shapes, including orthogonal, stretch and non-woven fabrics, coagulated and coated with traditional and bio-based polyurethane (EQ range on request).

FINITURE

The finishes available are many, including lacquered effect, smooth surfaces and animal or fabric grains. Fashion is mainly colours. That's why KORAM's offering has so many variants.
